

“ I am most grateful for the care provided by Barbara and Cyrus at Celebrate Wellness. I have experienced a dramatic and improved change in my state of health as well as improved sleeping patterns. I was initially hesitant to consider energy treatments or homeopathic medications, however I am convinced my greater state of health is a direct correlation to the expert care and professional follow up provided by the Celebrate Wellness team.

Sue Grantis, St. Catharines

“ I can say that the experience of the services and products offered by Celebrate wellness has been truly excellent. Their dedication to my wellbeing has been just fabulous. I walked in feeling unhealthy in body and mind and I can now say that 'I've got my life back!'

Gail Kasprick, St. Catharines

# Two hours that can improve your health and change your life.

**You've got your blood work done, you've got your MRI's, you've got your X rays, you've filled umpteen prescriptions, yet you haven't got your energy work done. Not diagnostically, not therapeutically.**

The region's finest 2 Hour Holistic Health Consultation is the one offered at Celebrate Wellness where the body is addressed energetically throughout the two hours.

## HOUR 1

### EAV Testing

**During the first hour**, Barbara DaSilva, an experienced and intuitive expert uses a technology developed over 50 years ago by Dr. Reinhardt Voll, a medical doctor who determined that you could take an electrical measurement of the energies flowing through the meridians (energy pathways). EAV Testing is a Computerized Health Test used to conduct a comprehensive health evaluation. While it is not considered a conventional medical diagnosis, it does provide invaluable information on what may be the underlying or "root" causes of acute or chronic conditions.

The testing identifies imbalances in the energy flow through the organs, glands and systems of the body. Very often these imbalances can be detected two to five years prior to the symptoms of the disease being present. EAV testing is painless and non-invasive and there are no side or after effects. The objective is to assist the body in achieving a state of balance by removing any obstacles that are preventing the body's natural intelligence and healing abilities to thrive.

### What can it do?

- Detect viruses, bacteria, parasites, heavy metals, dental toxicities
- Identify food sensitivities/environmental sensitivities
- Test for specific toxicity and drainage levels and their effects on energy and organ functions
- Test supplements/remedies to ensure compatibility. (Eliminates guessing so that you take ONLY what will work for you)

## HOUR 2

### Holistic Consultation & Energy Healing

**The second hour**, again using an energy technology, a holistic practitioner, Cyrus Mehta who has been practicing for over 40 years and is experienced in the art of channeling energy will address the physical, emotional and energetic body. Studies have shown that all disease begins with a disruption in the flow of energy and unchecked emotional issues undoubtedly will result in physical symptoms. We live in a "quick fix" society, where people are anxious to feel better instantly by taking a prescription or having surgery. Unfortunately, the symptom will only be suppressed and the cause of the illness will be pushed further into the cellular body. The energetic aspect **MUST** be addressed in order for the body to return to a balanced, healthy state.

One must keep in mind that using the field of energy around us and channeling it is available for anyone. However, just like any skill this is operator sensitive and becomes more powerful with experience. With Cyrus' extensive experience, gifted intuition, compassion and a deep understanding of the different layers of healing, you will experience a very effective and positive shift in your health. Cyrus uses his expertise to provide each client with a unique protocol that will address their needs specifically. He provides the client with a customized holistic consultation including an energy healing session, a personalized Bach Flower Remedy and other modalities that he would deem appropriate for you to be well on the way back to health.

We human beings are multi-dimensional and we live in an extraordinarily interesting and wonderful world where the natural laws of physics may be harnessed to contribute to our health.

The region's finest 2 hour Holistic Health Consultation is now available at Celebrate Wellness.
